

The market leader in Mini Golf - Just turned the game digital

Over the years, City Golf Europe has designed and produced more than 2,500 mini golf courses and over 400 Adventure Golf facilities across Europe.

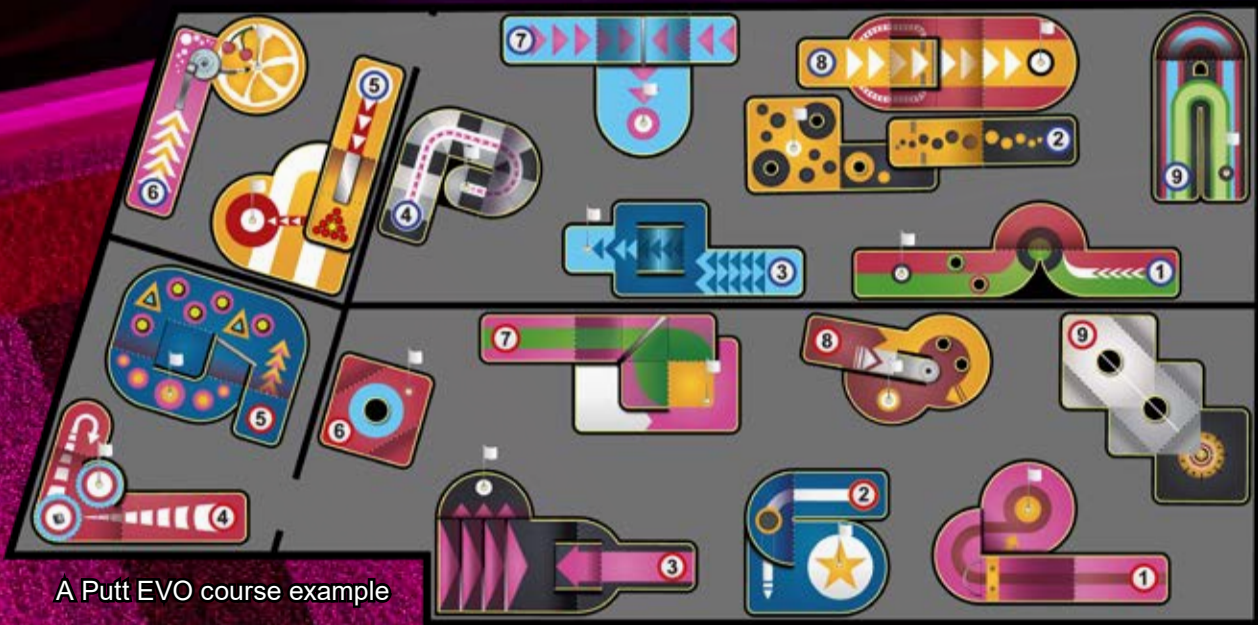

We are now bringing the high quality, huge experience and confidence onto our new immersive and digitalized product, Putt EVO.

**PUTT
EVO**

The logo for 'Putt EVO' is displayed in a large, bold, black font. The word 'PUTT' is on the top line and 'EVO' is on the bottom line. A golf club is positioned vertically between the two words. To the right of 'EVO' is a circular emblem containing the word 'City' in a cursive font, topped with a crown. A hand from the right side of the image is pointing towards the logo.

A Putt EVO course example

A Putt EVO course is built with quality material. Same as we always use with pride in all of our other products. With experience in design and production stretching all the way back to the 1930's.

Each hole is enhanced with amazing light effects and features, with a putting that challenges and gives the players a memorable experience!

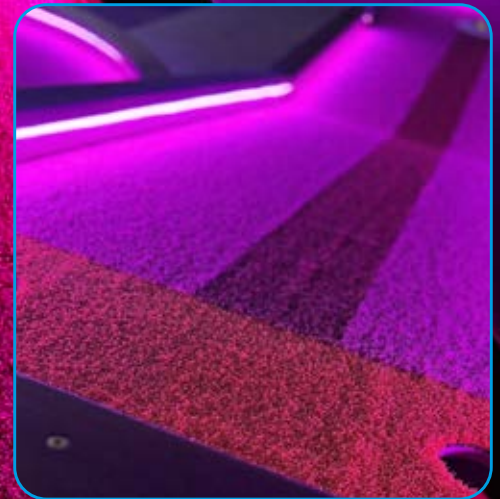

Light effects

Quality material

High playability

Minigolf is going digital. Grab Your Putter!
